

Established in 1956, **UFO Research Queensland** is a non-profit, voluntary association whose primary objective is to discover the meaning of the UFO Phenomenon.

UFO Research Queensland's official policy on UFOs is that there now exists – and has for many years – a large body of well attested sightings that are so ambiguous that the only reasonable inference is that extraterrestrial vehicles are flying through our atmosphere, landing on the ground, and entering our oceans.

It is also official that certain accounts of face to face meetings with the occupants of these vehicles are true and honest accounts, and provide an important body of further documented information. As the number of witnesses who have had sightings and close encounters with UFOs increases across the world, governments can no longer keep UFOs an X-File from society.

By becoming a member you will receive our bi-monthly journal *UFO Encounter*, keeping you well informed on the subject. You will also receive concessions to public meetings.

Most of all, you will be contributing to our ongoing efforts of documenting UFO activity, disseminating this information, and building a better understanding of the entire phenomenon.

You will also be demonstrating a concern over the authorities' handling of UFO matters.
